# PRODUCT DATA

**UNILOCK®** **50**  
PAVING IT FORWARD YEARS

“A beautiful outdoor space should stand the test of time, every time.”

---

**Ed Bryant | Unilock Founder**

November 30, 1935 - January 28, 2021

# Laying a Foundation for Inspiration

---

50 years ago, our founder had a dream. When Ed Bryant introduced the UNI-Stone paver to the North American market, he essentially established the hardscaping industry here. Since then, we have continued to innovate and grow. As a result, we are proud to have played a part in creating countless beautiful spaces, from backyard patios to landmark destinations across the continent. And we're just getting started. We know Ed would be proud.

# Quality

## FOR US, IT'S PERSONAL

**Over 50 years ago**, our founder stumbled upon a unique little European product called the UNI-Stone. Intrigued by the benefits of this revolutionary paving method, he decided to license the product and bring the concept to North America. He purchased a basic paver machine from Europe and hired a small staff to produce the stones.

In those early days, most sales of Unilock were to large-scale commercial properties and streetscapes. Any lapse in quality would be costly and would jeopardize

our owner's personal reputation, so quality was of paramount importance.

From these humble beginnings, through to the multinational company we are today, Unilock has remained a family-owned company that puts quality first. For us, it's not just a matter of dollars and cents, it's our personal reputation that's on the line.

Homeowners, Contractors, Landscape Designers and Architects across North America know they can rely on us to supply them with top quality product every time.

Today we operate 20 manufacturing plants across North America.

The first Unilock press produced a humble 817 square feet of pavers a day.

## PRODUCT CATEGORIES

### CLASSIC

Our budget-friendly, Unilock Classic pavers and walls are manufactured to exceed ASTM standards for quality and strength. Available in classic shapes and styles, these products utilize a traditional product mix of large and small aggregates that is consistent from top to bottom with color mixed throughout.

### ENDURACOLOR™

The refined surface of Unilock EnduraColor products is achieved with a two-step manufacturing process that combines a base of coarser aggregates for a stronger foundation with concentrated color and wear-resistant finer aggregates on top. This process protects the surface from the appearance of fading over time because the top layer prevents large, lighter color aggregates from ever showing through. Now, with U-Cara®, walls are available with EnduraColor too!

### ELEGANCE®

Deep, rich colors and a multitude of unique Reala™ textures combine to deliver the timeless beauty of Unilock Elegance. From the timeworn look of European cobblestones, to the classic luxury of riven natural stone slabs, our Elegance collection offers styles you can't get anywhere else. Thanks to Ultima™ Concrete, the look you purchase is the look that will last, with up to **4x the strength of poured-in-place concrete**.

# PERMEABLE Think Green

Developed in response to growing concerns around stormwater management, permeable pavers allow rainwater to flow between the joints and back into the subsoil. This provides a dual “green” benefit: it reduces the amount of water sent to storm sewers, and instead provides extra moisture to surrounding plant material.

The pavers used in a permeable installation look similar to traditional pavers, but are made with special spacer bars that create a wider joint.

Special materials are used in the joints and in the permeable base below, to encourage water to flow through and reach the subsoil.

Using permeable pavers will reduce puddling on the pavement when it rains, and decrease ice build-up in winter.

 Look for this permeable icon in our Unilock paver collection.

## EXCLUSIVE TECHNOLOGIES

### Reala™

Utilizing REALA technology, a multitude of natural stone surfaces, brick and historic cobblestones are cast to create a **wide variety of authentic textures** with consistent dimensions that are **more cost efficient to install**.

 ELEGANCE™

#### With Ultima

*Unilock Town Hall® pavers are built to last*

#### Without Ultima

*Deteriorating brick pavers exposed to deicing salts*

### Ultima™

Only Unilock has the technology in North America to manufacture Ultima Concrete resulting in pavers **up to four times stronger** than poured concrete. With Ultima, the look you purchase is the look that will last.

➤ Ultima Concrete is a key ingredient in the timeless elegance of our Elegance collection of premium pavers.

## ColorFusion™

The look of natural granite is achieved when color and granite particles are randomly dispersed using proprietary ColorFusion technology to achieve a unique mottled surface.

*ColorFusion also available on our U-Cara® Multi-Face Wall System.*

## EasyClean™ Integral Stain Protection

Unlike after-market sealers which merely coat the top, EasyClean goes beyond the surface and becomes integral to the product during manufacturing. The result is enhanced surface color, and protection from stains.

**AFTER**

Stains set for thirty minutes, then removed with damp paper towel, hand scrub brush and mild soap.

Nothing protects pavers from stains like EasyClean.

### EASYSKLEAN ADVANTAGES

Pavers are pre-sealed at the factory

Enhanced resistance to weathering

Reduced dirt absorption

Stains from leaves, coffee, ketchup, mustard, wine and BBQ oils are easier to remove

Pavers shown on left hand side are Thrumix pavers without EasyClean. Pavers shown on right hand side are EnduraColor pavers with EasyClean Stain Resistance Technology.

# UP YOUR GAME WITH

# UniLyft™

*UNILYFT MINI  
FOR COMPACT  
TRACK LOADERS*

- ❑ Reduce labor costs
- ❑ Install pavers and walls faster and more accurately
- ❑ Reduce shoulder, hand, and knee pain
- ❑ Improve your bottom line
- ❑ Retain employees and attract new ones

## THE IMPORTANCE OF ASPECT RATIO

Simply defined, aspect ratio is the overall length of a paver divided by its height.  
 $\text{LENGTH/HEIGHT} = \text{ASPECT RATIO}$

If an insufficient aspect ratio is used, any flexing or rocking caused by movement on the surface such as vehicular traffic, could result in breakage of the paver units. Not only is this breakage unsightly, but it can also compromise the integrity of the segmental system.

**OVER 5 : 1**  
Pedestrian Only

**4 : 1**  
Light-Duty  
Vehicular

**3 : 1 OR LESS**  
Heavy-Duty  
Vehicular

## LAYING PATTERN CONSIDERATIONS

The laying pattern used in your application can also add a significant amount of strength to your design. A herringbone pattern provides the best 'lock-up', adding strength against rotational forces such as tires at a roadway intersection in the same way the 'L' shaped paver provides maximum performance.

## HEAVY-DUTY CONSIDERATIONS

Unilock has a variety of shapes and sizes available to fit your heavy-duty application and style preferences. For maximum performance where twisting and tipping will be factors, consider the unique "L" interlocking shape as it provides superior resistance under heavy loads. The patented locking features work in tandem with the "tri-axis" technology. The result? A stronger, more stable pavement surface.

Heavy-duty Unilock paving systems are also designed for rapid mechanized installation, making them competitive and affordable.

### H-20 & HS-20 LOAD RATING

Similar to top of deck stresses per AASHTO H-20 loading conditions (32,000 lbs/14,500 kg), Unilock pavers can support 3-4 axle vehicles. This would include delivery, fire and semi-truck and trailer traffic in light-duty roadway applications.

*SPEAK WITH YOUR UNILOCK REPRESENTATIVE FOR MORE INFORMATION.*

## NON-PERMEABLE INSTALLATIONS

Having the correct base design is essential for successful residential and commercial projects. Below are a couple of Examples of the base detail; however, every base detail must be specific to site conditions and load capacity. Contact your Unilock Representative to learn more.

### PAVER INSTALLATION ON GRANULAR

From pedestrian to heavy-duty applications this detail is tried and true. Contact your Unilock Representative to learn more. Specific installation details may vary based on site conditions.

### PAVER INSTALLATION ON SAND OVER CONCRETE

Ideal for heavy-duty applications, this detail ensures adequate base support under heavy loads. Approving the proper sand type and gradation is critical for lock up and drainage in vehicular applications. Contact your Unilock Representative to learn more. Specific installation details may vary based on site conditions.

## PERMEABLE INSTALLATIONS

Similar to the non-permeable paver systems structural component, permeable paver installations offer a secondary purpose for capturing and detaining rainwater. Common uses can range from sidewalk and plaza areas, to heavy-duty parking lots, driveways and roadways and include various base depths as shown in the two details below.

### PERMEABLE ON OPEN GRADED AGGREGATE - LIGHT DUTY

This cross-section is an example of a light-duty pedestrian sidewalk application. Contact your Unilock Representative to learn more. Specific installation details will vary based on site conditions.

### PERMEABLE ON OPEN GRADED AGGREGATE - HEAVY-DUTY

Heavy-duty permeable applications require additional base support as illustrated below. This cross section is only an example. Contact your Unilock Representative to learn more. Specific installation details will vary based on site conditions.

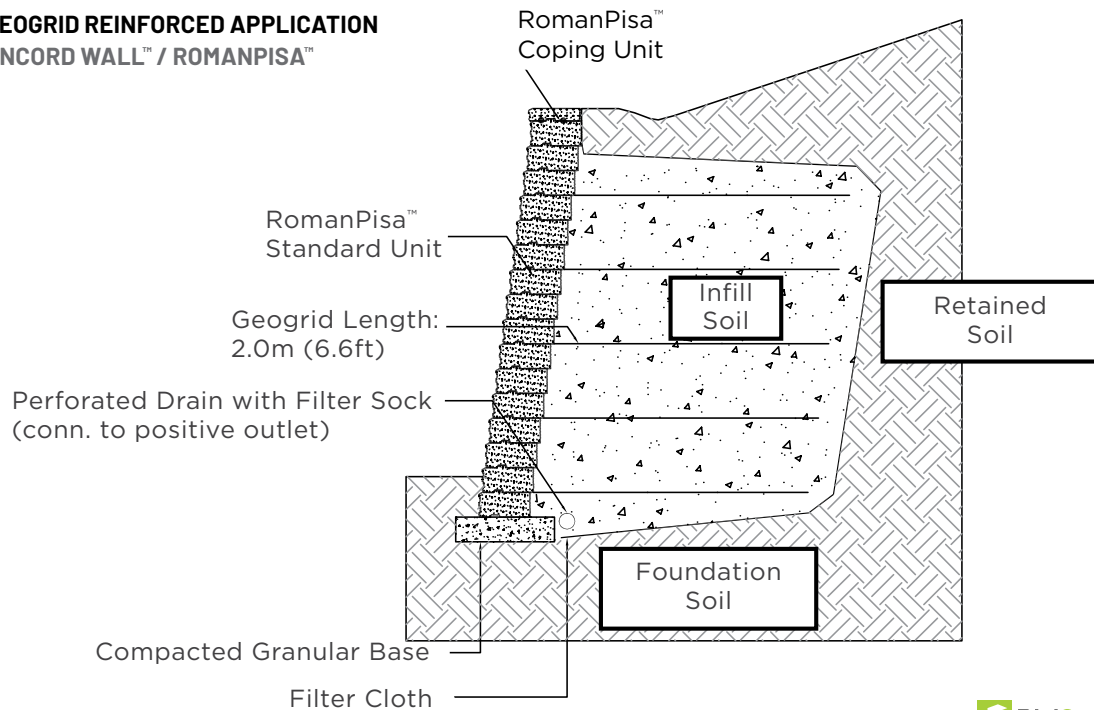

## TYPICAL RETAINING WALL CROSS SECTIONS

Unilock manufactured retaining wall systems are engineered to last. Individual units range from 19lbs (8.6kg) to 1,700lbs (772.7kg), and some can be used to construct walls up to 40ft (12.2m) high. Below are a couple of cross section examples, however, retaining walls must be designed and engineered to the specific loads and site conditions.

### TYPICAL GEOGRID REINFORCED APPLICATION PISA2™/CONCORD WALL™ / ROMANPISA™

### TYPICAL GRAVITY APPLICATION SIENASTONE®

# ROOF DECKS

Unilock has many options for paving products on roof decks. Various installation methods will determine the appropriate products for the application. While pedestal installation typically utilizes the square or large slabs, a granular installation will extend your product choice and design flexibility. **Ask your Unilock Representative for details.**

Product Type	Thickness	Shape	Product Weights
Arcana™ + Skyline™	50mm	606 x 606mm	24 lbs/sq.ft.
Soreno™	50mm	400 x 800mm	24 lbs/sq.ft.
Beacon Hill™ XL	60mm	900 x 540mm** 720 x 540mm**	27.5 lbs/sq.ft.

## PEDESTAL SYSTEM

Unilock offers adjustable and stackable pedestal systems for your project. Contact your Unilock Representative to learn more. Specific installation details may vary based on pedestal height, load-bearing requirements, safety standards and wind-lift.

## GRANULAR BASE SYSTEM

The cross sections shown are examples of the type of installation systems and technical features of Unilock products. Unilock shall not be deemed responsible for improper use of the product or of damage deriving from any

use different from those recommended and/or installation procedures not in line with the following instructions relevant to a raised installation. **All roof top slab/pedestal installations must be engineered by a professional engineer.**

# LEED® CREDIT OPPORTUNITIES

LEED, Leadership in Energy & Environmental Design, is a green building certification program that recognizes best-in-class building strategies and practices that have a positive impact on the health of occupants, while promoting renewable, clean energy. To receive LEED certification, building projects satisfy prerequisites and earn points to achieve different levels of certification. Unilock products can help with your certification goals.

## POTENTIAL LEED CREDITS FOR UTILIZING PERMEABLE PAVERS

### RAINWATER MANAGEMENT: LEED V4.1

Up to three points can be achieved for retaining rainwater onsite based on the percentile kept. 85% (zero lot line projects only) • 3 points, 95% – 2 points and 98% – 3 points. (all except Healthcare – subtract one point). *See LEED v4.1 for more specific project/site details.*

---

### HEAT ISLAND REDUCTION - NON-ROOF: LEED V4.1

Paving materials with a three-year aged solar reflectance (SR) value of at least 0.28. If three-year aged value information is not available, use materials with an initial SR of at least 0.33 at installation OR use an open grid pavement at least 50% pervious • 2 points (except Healthcare – 1 point). *See LEED v4.1 for more specific site calculations.*

---

### SOLAR REFLECTANCE

Solar Reflectance Index (SRI) is a criterion used by USGBC that measures values of sunlight and radiation bouncing from built surfaces. It is used to measure urban heat island effects in city centers. Dark pavement absorbs heat during the day and then releases it at night. This process creates a situation that causes urban centers to stay warmer all the time which contributes to air pollution and increased energy consumption. Careful selection of materials and colors can help reduce urban heat island effects.

*Values may change slightly by region due to variations in local aggregate and granite, please see product page for SRI values or contact your local Unilock Representative for more information.*

---

### MATERIALS AND RESOURCES: LEED V4.1

- > Building Product Disclosure and Optimization – Sourcing of Raw Materials  
– **Sourcing of Raw Materials and Extraction • 1 point**
- > Building Product Disclosure and Optimization – Material Ingredient Reporting  
– **Material Ingredient Reporting • 1 point**

**BUCINE  
BLUESTONE®**  
from Tuscany

**Bring a little bit of Florence and Tuscany to your project with Bucine Bluestone, exclusively from Unilock.**

The material of choice for leading artists in the history of Italian art and Renaissance, this stone has been widely used for centuries.

Our Bucine Bluestone is a sandstone, sourced directly from Italy. A classic material of beautiful, uniform grey color, it is highly durable for outdoor use, extremely versatile, easy to maintain and combines well with many other colors and materials.

Notes: **\*Special Order - Lead time is required, minimum quantities apply. SOLD IN FULL BUNDLES ONLY.** Closed-end coping units are closed on both ends so that they may be used as left or right units. Tie-back units are reinforced with steel. 1/2 Standard units are slightly tapered and can be used to create a 45 foot radius. Refer to terms and conditions for placement rates. Unilock, through Risi Stone® Systems International, can provide preliminary site engineering for most commercial projects. Soils information, site drawings, and loading requirements are some of the information details required in order to provide this preliminary site engineering. All measurements are nominal. Contact Unilock for more information.

# U-Cara® Multi-Face Wall System

These pages were added by Angela in discussion with Diane – please wait until all of the pages she is creating are added.

## APPLICATIONS

## ENDURACOLOR™

Refined surface and long-lasting color

## COLORFUSION™

Subtly mottled colored finish

## TECHNICAL INFORMATION

Conforms to ASTM C 1372  
Eligible for LEED v4.1 credits – see page 17.

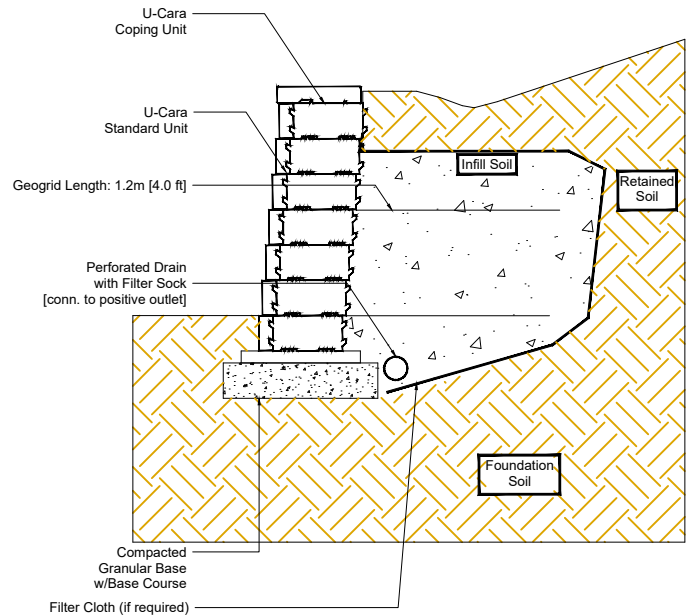

## CROSS SECTIONS

All Cross Sections are available on Unilock's Contractor web site under Products:  
[contractor.unilock.com](http://contractor.unilock.com)

# U-Cara® Modular System

## LOOKING FOR MORE INFORMATION?

Visit [Unilock.com](http://Unilock.com) to download the U-Cara Modular System Brochure.

The U-Cara Modular System offers a variety of aluminum frames that can be mixed and matched to construct vertical features like grill islands. Speak to your contractor to select a design and a U-Cara fascia panel finish to suit your project.

**With the U-Cara Modular System you can build Grill Islands, Bars, Back splashes, Fire Tables and Pillars.**

## TYPICAL CROSS SECTION FOR CONCRETE PAD INSTALLATION

## TUSCANY & BARCELONA FIREPLACE

### GUARANTEE

The standard Unilock guarantee applies to the units used to construct Unilock Elements. (See Unilock literature for details.) Third party grills and fireboxes carry their respective manufacturer's warranty, and may change without notice.

**Note:** Unilock reserves the right to change model designs, accessories and colors without notice. Unilock will not be responsible for improper use or handling that results in property damage. Some models may not be exactly as shown. Fireplaces come complete with UL- approved stainless steel fireboxes. Check local building codes and regulations prior to ordering and installing Unilock Elements.

# Techniseal Pro Series Cleaning Products

## PROFESSIONAL GRADE OIL & GREASE REMOVER RS-CLN001

Professional Grade Oil and Grease Remover is an industrial strength petroleum-based product. It lifts and absorbs embedded oil and grease stains as it dries from a liquid to a powder. Specially formulated for concrete pavers, slabs walls, natural stone, poured or stamped concrete, etc. Works without damaging or discoloring material and is easy to use.

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

Packaging: • 1 quart container • 6 per case • 100 cases per skid (600 qts)

## PAVER PRIMER & EFFLORESCENCE REMOVER RS-CLN002

Paver Primer is specially formulated to dissolve efflorescence (whitish salt deposit) and remove ground-in dirt on paving stones and concrete, without discoloring or damaging surfaces. It cleans evenly, and enables the sealant to better penetrate the material to be treated.

• Due to HAZMAT Regulations, no more than 1,000lbs may be picked up at one time.

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

Packaging: • 1 Gallon • Box of 4 x 1 US gallon • 45 cases per skid (180 gallons) • 150 sq ft approx. coverage

## RUST REMOVER RS-CLN012

Paver Cleaner cleans rust from paving stones and concrete without discoloring the surface.

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

Packaging: • 1 Quart container • 6 per case • 120 cases per skid (720 qts)

## PAINT, TAR & RUBBER REMOVER RS-CLN007

Description: Paver Cleaner thoroughly dissolves paint, tar or bitumen, rubber and chewing gum, from paving stones, concrete, and masonry.

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

Packaging: • 1 Liter container (1US qt) • 6 per case • 120 cases per skid (720 x 1 liter/ 720 x 1 US qt)

## PAVER RESTORER RS-CLN044

Description: Paver Restorer's concentrated formula removes cement slurry and jointing haze, as well as stains generated by pavers and slab cuts. Unlike muriatic acid, Paver Restorer has very little odor and is environmentally friendly.

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

Packaging: • 1 Gallon • 4 per case  
• Cleans up to 200 square feet per gallon • Coverage depends on surface porosity and severity of haze.

# Surebond Cleaning Products

## SUREBOND SURECLEAN RS-CLN014 (1 Gal)/ RS-CLN063 (5 Gal) SPECIAL ORDER

SureClean is a powerful, super concentrated non-acid multi-use cleaner that dislodges deep set dirt and grime, tire scuffing, and environmental soiling. SureClean's unique Clean Rinse Technology allows residue to be quickly and easily rinsed away with a high or low pressure washer. Its biodegradable and environmentally friendly phosphate-free formula replaces most harsh acid cleaners and its alkaline nature will help neutralize acid based detergents and cleaners. Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

Due to HAZMAT Regulations, no more than 1000 lbs. may be picked up at one time.

Packaging: • 1 Gallon • 4 per case • 27 Cases per Skid

## SUREBOND EFFLO OFF RS-CLN062 (1 Gal)/ RS-CLN067 (5 Gal) SPECIAL ORDER

Efflo Off is a buffered, non-acid, organic salts, technologically advanced concentrated cleaner designed for the removal of efflorescence, mineral and salt deposits from virtually any type of hardscape surface with minimal or no brushing. Efflo Off is mild but may be corrosive to certain woods, metals and plants. Covering and protecting surrounding areas during application may be required. Efflo Off's unique Clean Rinse Technology allows residue to be quickly and easily rinsed away with a high or low pressure washer. Efflo Off's biodegradable and environmentally friendly phosphate free formula replaces several types of harsh acid cleaners and its alkaline nature will help neutralize acid based detergents and cleaners. Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS. Due to HAZMAT Regulations, no more than 1000 lbs. may be picked up at one time. (27 cases per skid or 25-5 gallons per skid/truckload)

Packaging: • 1 Gallon • 4 per case • 36 Cases per Skid (144 each)

## SUREBOND STAIN & RUST BUSTER RS-CLN065 (1 Quart)

S.R.B. is a powerful, concentrated spot cleaner which dislodges and removes common stains caused by moss, mildew, leaf, rust, blood, beverage spills and non-greasy food. S.R.B.'s concentrated, biodegradable formula allows for a full spectrum of dilutions matched to your cleaning needs. S.R.B.'s unique Clean Rinse Technology quickly and easily rinses away residue with a high or low pressure washer. Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

Packaging: • 1 Quart • 12 per case • 27 Cases per Skid (324 each)

# Adhesives

## **SUREBOND SB-10 ADHESIVE** RS-ADH009-1(10 oz) / RS-ADH015-1(28 oz)

(Conforms to UN-STD. 1804, ASTM 2339-70& FHA UM-60) Color: light tan

Surebond **SB-10** adhesive **SB-10** Paver Bond is a fast set up, quick curing, superior strength, structural grade hardscape adhesive. Adheres well in extreme conditions such as temperatures ranging from 0° to 100° F, frozen and/or damp substrates. Superior durability to withstand extreme wear and tear including heavy vehicular traffic. Helps to level and shim. Applies easily with a caulking gun. • Low odor • VOC compliant • 900 psi

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

Packaging: • 10 oz. Tube: 12/case & 140 cases/skid • 28 oz Tube: 12/case & 60 cases/skid

## **ALLIANCE XP GATOR BLOCK ADHESIVE** RS-ADH039 (10 oz) / RS-ADH040 (28 oz)

Gator Block Bond Adhesive is one of the strongest polyurethane adhesives on the market, specially formulated for bonding concrete, natural stone, blocks, bricks and pavers and can be used on dry or damp surfaces. It bonds permanently in 24 hours. • Low odor • VOC compliant • 850 psi in 24 hours/1000 psi in 7 days

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

Packaging: • 10 oz. Tube: 12/case & 90 cases/skid • 28 oz Tube: 12/case & 60 cases/skid

## **TECHNISEAL STRUCTURE BOND™ FOAM ADHESIVE**

RS-ADH048 (24 oz)

24 oz. Canister = 600 linear feet at 3/8" bead (12/case)

Structure Bond is an innovative super-strength foam adhesive that bonds a wide range of construction products. Application time is up to 50% faster than with conventional tube adhesives and materials are bonded in just 8 minutes and adhesive is full cured within 24 hours. Made from high-quality modified polyurethanes with excellent long-term resistance to weathering, dilute acids and caustic solutions.

## **TECHNISEAL STRUCTURE BOND™ GUN II**

RS-TOOL378

1 Dispenser (12/case)

The Gun II dispenser for application enables you to gain access to hard-to-reach areas and greatly limits excessive spillage or dripping, while also reducing user fatigue, with total control on product flow. This gun allows for a precise adhesive delivery with a single pull of the trigger that stops as soon as you let go. Requires no pumping, cutting or puncturing of cartridge nozzles.

## **TECHNISEAL STICKY STONE** RS-ADH055 **STICKY STONE GUN** RS-TOOL557

20.3 oz. Sausage: 50' at 1/4" Bead

Professional-grade vertical hardscape adhesive that bonds various construction substrates beautifully and durably.

SURFACE TYPE: Natural Stone, Concrete Paver, Porcelain Tile, Wood

COVERAGE: Coverage power will depend on the dimensions of the application surface. ex. 1/4" x 1/4" deep area, a single 20.3 oz. sausage will cover 50 lin. ft. On an 5/16" x 1/4" deep area, the same size will cover 40 lin. ft.

# Sealing Products

## **SUREBOND SB-8700 WET LOOK JOINT STABILIZING SEALER**

RS-SEAL151(1 gal) / RS-SEAL152 (5 gal) / RS-SEAL176 (55 gal) **SPECIAL ORDER**

**SUREBOND 8700** is an advanced premium acrylic sealer with a gloss finish that repels water within 90 minutes and stabilizes joint sand. **SUREBOND 8700** is specially formulated with antifungal agents designed to help inhibit the growth of mold, fungi and moss on horizontal pavement surfaces. This breathable sealer can be applied immediately to new installations and will not trap naturally occurring efflorescence. Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS. • **Due to HAZMAT regulations, no more than 1000lbs may be picked up at one time. (27 cases per skid or 22-5 gallons per skid/truckload)** Packaging: • 4 1-gallons/case • Approximate coverage 80-120 sq.ft. per gallon

## **SUREBOND SB-1300 JOINT STABILIZING SEALER**

RS-SEAL037-2 (1 gal) / RS-SEAL036 (5 gal) / RS-SEAL038 (55 gal) **SPECIAL ORDER**

**Surebond 1300** is an epoxy modified, single-component VOC, EPA, and OSHA compliant, solvent-free, penetrating sealer that provides protection to interlocking paving stone installations against salt spray, acid rain, food and beverage stains, and other oxidizers. This matte finish sealer binds joint sand together to ensure the integrity of the pavement by forming a homogeneous, flexible pavement that stops erosion or joint sand failures in large paver installations. It is also used to seal retaining walls and for concrete and aggregate and split-face stone to protect against staining, salt spray, and acid rain damage and discoloration for architectural, industrial, and residential installations. Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS

Packaging: • 4 1-gallons/case • 36 cases per skid • 36-5 gallon pails/skid • Approx. coverage 100-150 sq.ft. per gallon

## Sealing Products continued

### TECHNISEAL® WL4 PROSERIES WET LOOK WATER REPELLANT

RS-SEAL001(1gal) / RS-SEAL073 (5 gal) / RS-SEAL003(55 gal) **SPECIAL ORDER**

Made of acrylic and plasticizers, Wet-Look Paver Protector (**WL4**) is a wet-look, gloss-finish and microporous transparent coating that protects pavers made of concrete while enhancing their original color. It reduces oil and dirt penetration, and makes cleaning easier. Easy to apply, it penetrates the surface for maximum adhesion and durability. It will not peel or discolor. It resists the elements (freeze-thaw cycles, sun, rain, etc.), as well as calcium and salt. It also resists hot tire pick-up. Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS. For outdoor use only. • **Due to HAZMAT regulations, no more than 1000lbs may be picked up at one time. (22 Cases per skid or 19-5 Gallon pails per skid/truckload)**

Packaging: • 4 1-gallons per case • Approximate coverage 100-150 sq.ft. per gallon

### TECHNISEAL® WL5 PROSERIES WET LOOK RECOATER PAVER PROTECTOR

RS-SEAL113(1gal) / RS-SEAL096 (5 gal)

Wet Look Recoater (WL5) is specially formulated for surfaces previously sealed with the **WL4** or **WLWR** Protectors. This easy to apply sealer, adds a rich satin and glossy appearance to pavers. Consisting of acrylic and plasticizers, the Wet Look Recoater (**WL5**) can be used to effectively protect and enhance hardscape installations. The sealer has optimum oil repellency and resists the assaults of weather (freeze-thaw cycles, sun, rain, etc.) as well as calcium and salt. Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS. For outdoor use only. • **Due to HAZMAT regulations, no more than 1000lbs may be picked up at one time. (22 cases / skid or 19 x 5 gallon per truck load)**

Packaging: • 4 1-gallons per case • Approximate coverage 100-150 sq.ft. per gallon

### BP PRO WL WET LOOK SOLVENT-BASED SEALER

RS-SEAL049-1(1 gal) / RS-SEAL050 (5 gal) / (55 gal) **SPECIAL ORDER**

Designed specifically for use on block paving to seal the paver surface and fuse the joint sand. It is a solvent-based single component polymer that creates a semi-gloss finish. It has the consistency of a light oil and is clear in appearance. It has a strong odor when in its liquid state and dries to a transparent semi-gloss finish with a darkened wet look. It can be used outdoors on new and existing projects because it is UV stable. WetLook Stabilizing Sealer can be applied immediately because it is breathable and does not trap moisture and it has outstanding coverage. The product is easy to install and offers great stain and environment protection. Cured product is heat and freeze resistant. Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS. • **Due to HAZMAT regulations, no more than 1000lbs may be picked up at one time. (27 cases per skid or 25-5 gallons per skid/truckload)**

Packaging: • 4 1-gallons per case • 50-125 sq.ft. coverage per gallon (approx.)

### BP PRO INVISIBLE STAIN BLOCKER ISB

RS-SEAL127(1 Gal) / RS-SEAL128 (5 Gal) **LIMITED STOCK AVAILABLE**

Designed specifically for use on block paving to provide an invisible stain resistant barrier. It is a water-based single component polymer that penetrates to give you an invisible natural finish. StainBlocker is a green product that is solvent free and environmentally friendly. It is VOC, EPA, OSHA and FDA compliant. It is non-hazardous and non-toxic and has the consistency of water and a milky white appearance and a slight odor when in its liquid state and dries to an invisible finish. It can be used indoors and outdoors on new and existing projects because it is safe and UV stable. StainBlocker can be applied immediately because it is breathable and it has outstanding coverage. The product is easy to install and offers excellent stain protection and reduces the formation of efflorescence. Cured StainBlocker is heat and freeze resistant.

Packaging: • 4 1-gallons per case • 150-250 sq.ft. coverage per gallon (approx.)

### BP PRO WSS WET LOOK JOINT STABILIZING SEALER

RS-SEAL078 (1 gal) / RS-SEAL079 (5 gal) / RS-SEAL080 (55 gal) **SPECIAL ORDER**

Designed specifically for use on block paving to seal the paver surface and fuse the joint sand. It is a solvent-based single component polymer that creates a semi-gloss finish. It has the consistency of a light oil and is clear in appearance. It has a strong odor when in its liquid state and dries to a transparent semi-gloss finish with a darkened wet look. It can be used outdoors on new and existing projects because it is UV stable. WetLook Stabilizing Sealer can be applied immediately because it is breathable and does not trap moisture and it has outstanding coverage. The product is easy to install and offers great stain and environment protection. Cured product is heat and freeze resistant. • **Due to HAZMAT Regulations, no more than 1000 lbs. may be picked up at one time. (27 cases per skid or 25-5 gallons per skid/truckload)**

Packaging: • 4 1-gallons per case • 50-125 sq.ft. coverage per gallon (approx.)

### BP PRO ESS ENHANCED JOINT STABILIZING SEALER

RS-SEAL042 (1 gal) / RS-SEAL043 (5 gal) / RS-SEAL044 (55 gal) **SPECIAL ORDER**

BP Pro Enhanced Joint Stabilizing Sealer is designed specifically for use on block paving to stabilize joint sand and seal the paver surface. It is a water-based, single-component polymer that penetrates into the pores and seals the surface with a coating that creates a semi-gloss finish. Enhanced Joint Stabilizing Sealer is a green product that is solvent free and environmentally friendly. It is VOC, EPA, OSHA, and FDA compliant. It is non-hazardous and non-toxic. Stabilized joint sand will significantly reduce weeds and insect infestations. It is a dual-purposed surface and joint sand stabilizer.

Packaging: • 4 1-gallons per case • 36 cases per skid • 36 5-gallons per skid • 4 55-gallon container per skid  
• 80-100 sq.ft. coverage per gallon (approx.)

# Sands

## SEK JOINTING SAND

RS-SAND001-1 - Tan / RS-SAND140 - Grey / RS-SAND186 - Black / RS-SAND148 - Platinum

Kiln dried and angular shaped in order to flow easily and stay in place.

Packaging: • 50 lb/bag • 56 bags/skid

## SEK POLYSWEEP SAND

RS-SAND045 - Tan / RS-SAND046 - Grey / RS-SAND184 - Black / RS-SAND147 - Platinum

X-treme Wide PolySweep - RS111 - Russet Brown / RS-SAND117 - Grey

For concrete paver, cast stone pavements, slabs and natural stone joints up to 3/4". PolySweep polymeric sand is a blend of native sands and high quality synthetic polymers specially formulated to allow the joints to expand and contract with elements such as extreme heat, extreme cold and freeze/thaw cycles.

Packaging: • 50 lb/bag • 56 bags/skid

## TECHNISEAL PRO SERIES SMARTSAND POLYMERIC SAND

RS-SAND169 - Tan / RS-SAND168 - Grey

A special mix of graded sand and binder, designed for standard paver joints less than 1", specifically formulated for achieving optimum lock-up of pavers or slabs by filling the joints between them. Unlike regular sweeping jointing sand, Polymeric Sand resists insect penetration, weed growth, and erosion. New formulation with half hour setting time. Coverage: Approx. 75 sq. ft./ bag Coverage will vary depending on the type/size of stone used. Note: This product is recommended with extra care for use with Copthorne®, Courtstone®, Richcliff®, Town Hall® and Umbriano® products. Umbriano must have the surface cleaned with a foam squeegee post installation. This product is not suitable for use with Il Campo®, Series™ and Unigranite®.

Packaging: • 50 lb/bag • 56 bags/skid (2860 lbs/skid)

## TECHNISEAL PRO SERIES HP NEXTGEL POLYMERIC SAND

RS-SAND131 - Prairie Tan / RS-SAND130 - Prairie Grey

Designed for larger paver joints up to a maximum of 1 inch. This paver sand is a high-performance polymer sand - it is the ideal product for heavy traffic and wet areas. Weeds and insects in paver joints is part of the past with this high-end product. This polymer sand is a mixture of graded sand (ASTM C144) and binder. It penetrates easily into joints, ensuring a fast and efficient jointing solution. This easy to use jointing sand will start to harden in minutes after water activation, and it quickly becomes resistant to erosion caused by water (rain, sprinklers and spray). Coverage: 65-85 sq.ft. coverage per bag for narrow joints, larger joints will require more sand.

Packaging: • 50 lb/bag • 56 bags/skid (2860 lbs/skid)

## ROMEX EASY-PRO™ NEW SIZE

RS-SAND066 - Tan / RS-SAND068 - Basalt Black / RS-SAND069 - Stone Grey

Ultimate Paving Stone Joint Compound. Designed for installation in light rain or sun with a surface temperature above 32°F, this pre-mixed epoxy resin product is ideal for patios, pool decks and walkways. It is also permeable. Features: Vacuum packed, pre-mixed and ready to use, eco-friendly (60% renewable products), no haze formulation, for joint widths starting from 1/4" wide and 1/4" deep. Colors: Tan, Black, Grey Coverage: Approximately 45 sq. ft./container. Coverage will vary depending on the type/size of stone used. STORAGE: Open product good for 30 day when covered with water. Note: This product is not suitable for use with Umbriano®, Il Campo®, Series™, Unigranite®, Artline™ and Bristol Valley®.

Packaging: • 33lb container / 64 pails per skid, premixed

## ALLIANCE GATOR HP SUPER SAND BOND

RS-SAND078 - Beige / RS-SAND080 - Slate Grey

Wetcast & Natural Stone Joints up to 1"

**Super Sand Bond** is a unique mixture of polymer binders and calibrated sand available in Beige and Slate Grey. The installation of is almost identical to using regular paver joint sand, except for the application of water. Once Super Sand Bond sets, it becomes very firm and locks between the paver joints. This firm bond maintains pavers securely in place, being equally effective on both horizontal and sloped surfaces.

Packaging: • 50 lb/bag • 56 bags/skid

## ALLIANCE GATOR MAXX BOND

RS-SAND074 - Beige / RS-SAND075 - Slate Grey

For Concrete Paver, Wetcast & Natural Stone Joints up to 1"

Gator Maxx Sand is the first polymeric sand specifically designed for drainage and non-drainage base systems. It can be used with concrete pavers, wetcast and natural stones. It is recommended for a variety of uses, including pool sides, patios, foot paths, driveways, parking spaces, pavements etc. This complete multi-purpose sand is available in two colors: Beige, and Slate Grey. It sets above the freezing temperature (32°F / 0°C) and can be used for joints up to a maximum of 1 inch.

Packaging: • 50 lb/bag • 56 bags/skid

## Sands continued

### ALLIANCE SUPER SAND G2

RS-SAND156 – Beige / RS-SAND157 – Slate Grey

**SUPERSAND G2** is made with a state-of-the-art manufacturing process. Specifically, calibrated sand is mixed with sophisticated intelligent polymers. This new generation of Intelligent Polymers neutralizes haze and dust. No blower is needed and the intelligent polymeric sand requires only one watering. **SUPERSAND G2** is recommended for a variety of uses including pool decks, patios, footpaths, driveways, parking spaces and pavements.

Packaging: • 50 lb/bag • 56 bags/skid

### ALLIANCE MAXX G2

RS-SAND158 – Beige / RS-SAND159 – Slate Grey / RS-SAND160 – Diamond Black / RS-SAND161 – Ivory

**GATOR MAXX G2** is made with a state-of-the-art manufacturing process. Specifically, calibrated sand is mixed with sophisticated intelligent polymers. This new generation of Intelligent Polymers neutralizes haze and dust. The polymeric sand application is now dust free and haze free. No blower is needed and the intelligent polymeric sand requires only one watering. **GATOR MAXX G2** is recommended for a variety of uses including pool decks, patios, footpaths, driveways, parking spaces, pavements, etc.

Packaging: • 50 lb/bag • 56 bags/skid

### ALLIANCE EUROSTONE BOND

RS-SAND095 – Slate Grey Note: Beige, Diamond Black & Ivory are discontinued for 2022

For Driveway Aprons Application & Cobblestone Joints up to 35mm / 1"

**Eurostone Bond** is the first polymeric sand specifically designed for drainage and non-drainage base systems. It can be used with natural stones and cobblestone. It is recommended for a variety of uses, including streets, plazas (pedestrian and vehicular traffic) paths, sloping areas, around pools, etc. This complete multi-purpose sand is available in three colors: Beige, Slate Grey and Diamond Black. It sets above the freezing temperature (0°C / 32°F) and can be used for joints up to a maximum of 35mm/ 1".

Packaging: • 50 lb/bag • 56 bags/skid

### ALLIANCE GATOR DUST BOND

RS-SAND072 – Beige / RS-SAND073 – Slate Grey

For Stone Joints 1/2" to 4"

**Gator Dust** is a unique mixture of polymer binders and calibrated crushed stone available in Sahara Beige or Stone Grey. Once Gator Dust sets, it becomes very firm and locks between the stone joints. This firm bond maintains the stones securely in place equally effectively on both horizontal and sloped surfaces.

Packaging: • 50 lb/bag • 56 bags/skid

### ALLIANCE GATOR AQUA ROCK

RS-AGG032 – 50lb. bag (56 bags/skid) / RS-AGG033 (2200 lb. SuperSak)

For Permeable Paver Joints Graded ASTM NO.9 Granite Stone

**Gator Aqua Rock** is manufactured to meet ASTM No.9 requirements for permeable paver joint units. The calibrated gradation obtained from the fractured high-strength granite makes it the ideal product for the bedding course & jointing material to collect surface water run-off and help stabilize interlocking paver surfaces.

Packaging: • 50 lb/bag • 56 bags/skid

Coverage: • 20-25 Sq.Ft. = 50 lb bag • 880-1100 Sq.Ft. = 2200 lb bag

### ALLIANCE GATOR NITRO SAND

RS-SAND196 – Beige / SAND197 – Grey / SAND198 – Black

Ready-to-use mixture of calibrated sand and resins which cure when exposed to air, hardening from top to bottom of the joint.

Can be installed in wet or dry weather, in joints ranging from a minimum 3/16" (5mm) to a maximum 2" (50mm) joint width. The minimum jointing depth is 1" (25mm).

Packaging: • 40 lb/bucket • 48 buckets/skid

Coverage: • 10-56 Sq.Ft. per 40lb bag; yields approximately 10-56 square feet depending on joint size

### SEK PERM CHIPS

RS-AGG035 – Eclipse Black / RS-AGG040 – Stormy Grey

2500 lb Super Sack also available: RS-AGG036 – Eclipse Black / RS-AGG041 – Stormy Grey / RS-AGG039 Saturn Tan

This high strength crushed and washed granite meets ASTM No. 9 Stone Specifications for permeable joint filler. **SEK PermChip** is ideal for permeable paving stone installations, both as a bedding course and as a joint filler. An extremely hard material, it easily withstands the rigors of freeze/thaw cycles & won't break down, helping to control the runoff for years to come. The right choice for both residential and commercial applications including driveways, patios, walkways and parking lots.

\* Saturn Tan (RS-AGG037) is Special Order – Full Skid Qty. only! \*

Packaging: • 50 lb/bag • 56 bags/skid Coverage: • 30-35 Sq.Ft. = 50 lb bag • 1500-1750 Sq.Ft. = 2500 lb bag

# Grid Systems and Landscape Fabric

## Unilock® DriveGrid™ System

**UNILOCK DRIVEGRID™ SYSTEM**  
RS-FAB075

- 120' x 13.1' Roll - 1572 Sq. Ft.
- 56 lbs per Roll
- Sold in Full Rolls Only

## Stratagrid

**STRATAGRID**  
RS-FAB101

Stratagrid is a geogrid reinforcement for soil and aggregate reinforcement. These high-molecular weight and high-tenacity polyester yarns, utilizing a complex knitting process and low-temperature coating technology to provide superior engineering properties. Yarns are precision-knitted into a dimensionally stable, uniform network of apertures providing significant tensile reinforcement capacity. Stratagrid is engineered to be mechanically & chemically durable, in both the harsh construction installation phase and in aggressive soil environments (pH ranges from 2-10). A proprietary UV-stabilized coating provides further chemical and mechanical benefits.

SPECIFICATIONS	
Ultimate and Creep-Limited Tensile Strength (lbs/ft)	SGU60
Ultimate Strength	4,111
Creep-Limited Strength	2,875
Roll Dimensions (width x length)(feet)	6.25' x 288'
Area (square yards)	200
Weight per Roll (lbs)	85
Last Number	GB-3022

## Geotextile Fabric

**GEOTEXTILE FABRIC**  
RS-FAB001

FX-40HS, a non-woven Multipurpose Geotextile Fabric composed of 100T Polyester continuous-filament yarns and heat bonded so the filaments retain their relative position.

**SOLD IN FULL ROLL QUANTITIES ONLY.**

15' x 300' (4500 sqft per roll)

SPECIFICATIONS	
Physical Properties	Test Method
6oz. NonWoven	Mechanical
Puncture Strength (lbs)	ASTM D-4833 120
Water Flow Rate (gpm/ft²)	ASTM D-4491 130
Weight (oz/vd²)	ASTM D-3776 6.0
Thickness (mils)	ASTM- D-1777 75
Weight	225lbs/roll

## Grid Systems and Landscape Fabric continued

### GATOR GRID 30-30

Gator Grid 30-30, a biaxial geogrid, provides strength, longevity, excellent stress transfer and prevents failure to the internal structure of landing areas, retaining walls and steep slopes. It has a high molecular weight as well as high-tenacity polyester yards which are woven in tension and finished with a PVC coating.

Packaging & Unilock SKU:

- **FAB070** - 4' x 50' 12 rolls/case, 60 rolls/skid \* **Minimum Case Purchase** \*
- **FAB071 SPECIAL ORDER** - 6' x 50' - 40 rolls/skid
- **FAB072** - 6' x 150' 25 rolls/skid

### GATOR FABRIC NON-WOVEN 3.5 **SPECIAL ORDER**

Gator Fabric Non-Woven 3.5 geotextile is ideal for drainage, filtration and will allow water flow in a paver or retaining wall application. It is designed for soil separation for added stability, has high strength and is dimensionally stable.

Packaging & Unilock SKU:

- **FAB040** - 6' x 100' - 30 rolls/skid
- **FAB041** - 6' x 300' - 16 rolls/skid

### GATOR FABRIC NON-WOVEN 4.4

Gator Fabric Non-Woven 4.4 is a needle punched non-woven geotextile made of polypropylene fiber and is ideal for drainage, filtration and will allow water flow of 135 gallons per minutes per square foot (613 L/min/sq. m.) in paver or retaining wall applications. Its filament fibers are used for soil separation and drainage. They combine high durability along with excellent physical and hydraulic properties. It is non-biodegradable and resistant to most soil chemicals.

Packaging & Unilock SKU:

- **FAB043** - 3' x 100' - 6 rolls/case, 24 rolls/skid **SPECIAL ORDER** \* **Minimum Case Purchase** \*
- **FAB044** - 4' x 100' - 6 rolls/case, 36 rolls/skid \* **Minimum Case Purchase** \*
- **FAB046** - 6' x 100' - 30 rolls/skid \* **Minimum Case Purchase** \*
- **FAB047** - 6' x 300' - 16 rolls/skid \* **Minimum Case Purchase** \*

### GATOR FABRIC POLYSPUN 20 **SPECIAL ORDER**

Gator Fabric Polyspun 8 geotextile is specially formulated to resist deterioration in garden and landscape applications. It creates a barrier to reduce weed growth and allows water, fertilizer and air to pass through.

Packaging & Unilock SKU:

- 3' x 50' - **FAB054** - 16 rolls/case, 64 rolls/skid **SPECIAL ORDER** \* **Minimum Case Purchase** \*
- 3' x 100' - **FAB055** - 9 rolls/case, 36 rolls/skid **SPECIAL ORDER** \* **Minimum Case Purchase** \*
- 4' x 100' - **FAB057** - 9 rolls/case, 36 rolls/skid **SPECIAL ORDER** \* **Minimum Case Purchase** \*
- 6' x 100' - **FAB058** - 30 rolls/skid **SPECIAL ORDER** \* **Minimum Case Purchase** \*

## Edge Restraints

### SNAPEDGE - ONE-PIECE EDGING THAT DOES IT ALL!

RS-EDGE001 Low Profile - RS-EDGE017

- Only one part required for straight runs or curved installations.
- Built-in connector fastens one piece to the next - convenient 96" size, easy to transport.
- Unique 'Snip and Flex' feature speeds installations of curves and corners without pre-planning.
- The open design allows a root system to grow through SnapEdge, further reinforcing the installation.
- Engineered to provide a strong, easy-to-install edge restraint for concrete/clay pavers.
- Nail hole bosses are full-length cylinders. Hammer blows will not fracture or force nail heads through edging.

Freight Class: 300  
Pallet Weight: 210 lbs.  
Pallet Size: 98" l x 48"w x 50" h

### Spikes

RS-EDGE014

- 10" Round Spikes
- About 150 spikes per case
- Sold in full cases only

### PERMAEDGE PAVER EDGING

5 Gallon, 75 lb container RS-EDGE074

Designed to be mixed with water to use - 1 gallon water to 1 container product and is ideal for patios, pool decks and walkways. Better suited to open-graded aggregates, Perma Edge will outlast and out-perform traditional paver edging. It is quicker and easier to use, cutting installation time by 75%. Projects can be compacted and fine-graded immediately after installation.

- Coverage per container: yields approximately 25-30 lineal feet of edging per bucket

# Wall Drainage

**WALL DRAIN PRO**  
 12 units/case, 63 cases/pallet  
 Wall Drain Pro is a simpler, more effective wall drain than you've ever used before.

- Easy Installation
- Aesthetically Pleasing
- Integral Component of Wall Construction
- Customizable Height
- Works with Block or Timber Walls

BLACK - RS-ACC086  
 GREY - RS-ACC123  
 TAN - RS-ACC122

# X & T Slab Spacers

**X & T SLAB SPACERS**

- 250 per bag
- X & T bagged separately
- X spacers 2" x 2" (RS-ACC237)
- T spacers 2" x 1" (RS-ACC236)

Unilock recommends using slab spacers when installing Arcana on an open grade surface. "T" spacers are needed for running bond patterns, "X" spacers are needed for stack bond patterns. Please contact your sales manager for more information.

# Stainless Steel Fireplace Insert

	36	42
A	29"	35"
B	11-3/4"	11-3/4"
C	41"	48"
D	22"	24"
E	35"	42"
F	32"	44"
G	19"	22-1/2"

## STAINLESS STEEL FIREPLACE INSERT

These outdoor wood burning fireplace is the perfect complement to any modern outdoor room. Each unit features realistic textured refractory panels, stylish brushed stainless steel face, stainless mesh spark screen and a solid stainless steel log grate.  
 Stocked in 36" (RS-FIR033) – Limited availability in 42" (RS-FIR034)  
 Each unit is packaged with 18" & 36" Flue Pipe & Termination Cap – Please also use codes RS-FIR041, RS-FIR042 & RS-FIR036-1 when ordering.  
 Full Kit Weight: 254 lbs.

# Unilock Pedestal System

## TECHNICAL SPECIFICATIONS

Material	Recycled Polypropylene
Height Range	11/16" - 37-3/8" (17mm to 950mm)
Ultimate Compressive Strength <sup>1</sup>	P Series - 20 kN (4,496 lbs)* T Series - 10 kN (2,360 lbs)* M Series - 15 kN (3,372 lbs)*
Slope correction	0% to 8% @ 1% increment
Base Diameter	P Series - 6.81" (173 mm) T Series - 6.96" (177 mm) M Series - 8.26" (210 mm)
Spacer Tab Height	7/16" (11mm)
Spacer Tab Thickness	1/8" (3mm) [gap between pavers]
Biological / Chemical	Unaffected by molds and algae
Resistance	Good resistance to alkali and bitumen

<sup>1</sup>Detailed values for individual heights are given in the technical specification

### MAX PEDESTAL ASSEMBLY

#### ELEMENTS

**Gap spacers**  
Gap spacers create spaces between paver tiles with 3 mm width.

**Screw**  
Units have graduating heights.

**Adjustment ring for height regulation**  
Adjustment ring allows easy and smooth pedestal height adjustment.

**Base**  
Wide pedestal base for better support. Bases have different heights depending on unit.

#### OPTIONAL ACCESSORIES

**Rubber shim**  
Noise reduction shim. Can also be divided into parts.

**Self levelling head**  
Self levelling head automatically reduces surface slope up to 7%.

**Height coupler (use up to 3)**  
Additional Height couplers can be added to increase pedestal height.

Actual volume may vary due to type of materials, moisture content, and compaction. Calculation charts and formulas are provided as a service by Unilock for estimating material requirements. Unilock will not be held responsible in any way for resulting product overage or shortage.

# Sealer Best Practices

- The paver surface should be **clean** and free from oil, dirt, dust and any loose material. This ensures a uniform result and allows the sealer to better penetrate the surface.
- The pavers should be **free of any visible efflorescence**.
- If pavers have been sealed before, make sure to resealed with compatible product.
- **Surface must be dry** (48 hours without precipitation) and warm to the touch (morning).
- Joint sand must also be dry.
- Make sure lawn sprinklers are shut off.
- Best air temperature is between **50 degrees to 80 degrees** with no rain forecasted for the next 24 hours.
- It is best to apply product under constant weather conditions and use the **same application method from start to finish**.
- The paver joints should be completely filled with dry correctly-graded joint sand. The top level should not exceed the bottom of the chamfer or **1/8" below** the surface on the non-beveled or tumbled paver surface.
- **Always test the product** on a small hidden area to ensure the results will meet your expectations.
- Always show homeowners samples to ensure expectations.

**At this point read all sealer instructions and determine the best sealer for your desired goal. Do you want to retain the original look, enhance the color, or stabilize the sand joint?**

- **Read application information as each sealer can be applied differently.**
- **Make sure you have the correct equipment based on type of sealer. Solvent based sealers need solvent resistant sprayers, watering cans or paint trays.** Water base sealers can be generally applied using plastic equipment. Example: solvent based sealers come in metal containers and water based sealers come in plastic containers.
- Care should be taken that no excess sealer material is pooled on the surface during application always back roll. When using solvent based sealers make sure roller is solvent resistant or for all paints. Foam rollers work best and are less likely to pull sand from the joints.
- Stabilizing sealers are generally sprayed or flood coated with a watering can, then back rolled.
- Acrylic non-stabilizing sealers can be sprayed, then back rolled or rolled on using a metal paint tray.
- **Send your most experienced worker to do sealing projects.**

# Polysand Best Practices

- Ensure that paver surface has **proper drainage runoff** (Min 1" over 8'). Finished paver height should always be higher than grade to allow proper surface drainage.
- **Do not set pavers in limestone screenings.** This product holds moisture and does not meet the gradation, drainage qualities or strength of coarse concrete sand.
- Make sure pavers are **clean of all construction dust**. Residual construction dust will haze pavers!
- **Compact pavers** into setting bed to create proper interlock.
- Read and review all polysand manufacturers methods of application. **(Read Directions)**
- **Don't rush polysand installation.**
- Paver area must be completely dry.
- Lay bags of polysand over paver area. **Stage bags** in areas of coverage. Example: one bag for 60 square feet.
- **Do not over sweep sand.** Sweep sand back and forth within coverage area to fill paver joints.
- Compact sand into joints. This is a must in achieving proper density of the sand joint (repeat 3 times). Compaction is critical to assuring sand strength.
- Do not fill sand above the chamfer of paver. Sand should sit 1/8" below bottom of chamfer.
- Use a fine-bristle broom to **remove any excess sand from the paver surface**.
- Use a **leaf blower** remove any sand or binder residue.
- **Review all watering directions (each manufacturer has different watering instructions.) This is VERY IMPORTANT!**
- Always start watering at the **bottom of the slope**.
- Always start watering in **controlled areas** per manufacturers recommendations. Example: complete watering in 200 sq. ft. area then move on to the next 200 sq. ft. and repeat.
- During final watering of poly sand, **clean surface by removing excess water** with leaf blower or squeegee depending on paver surface texture. This will remove any leftover binder residue or sand.
- Final thoughts – Always be aware of the weather when installing poly sand. **(Temperature and setting time ratings differ between products.)**
- Refer to all manufacturers websites for installation videos.

# Terms and Conditions of Sale

## STANDARD TERMS

1. All orders are accepted subject to prevailing state or other taxes, and subject to applicable skid charges and the cost of freight applying at the time of shipment. Confirm prices at time of order as they are subject to change.
2. The acceptance by the seller of an order shall constitute a binding contract of purchase and sale, in accordance with the terms set out in this agreement.
3. These terms and conditions, together with the purchase order, form the complete contract, and there are no representations, warranties, or conditions expressed or implied, affecting this contract, other than as contained herein.
4. All sales are made in accordance with the seller's samples, which the purchaser has seen and approved. No guarantee of exact color shades is made.
5. Use of any delivered materials by or on behalf of the purchaser shall be deemed to constitute acceptance of the materials by the purchaser.
6. Excessive defective material picked up or delivered to the purchaser will be replaced free of charge if a claim is made within five days. Free replacement will be the extent of the seller's warranty. Any such claim will not constitute a reason for delaying payment. All other claims must be submitted within 30 days of purchase.
7. Unsuitable or unsatisfactory materials must be available for inspection by the seller to entitle the purchaser to any adjustment or credit. Skid returns will be posted to account next business day.
8. No materials may be returned for credit except with the written consent of the seller, whether such materials were ordered in excess of the purchaser's requirement, by mistake, or otherwise. Where the seller agrees to accept the return of goods, these goods are subject to freight charges and a restocking charge of 20% of their value. All goods must be returned in their original packaging. ACCESSORIES, SECTIONS AND OPENED MATERIAL ARE NONRETURNABLE FOR ANY REASON.
9. Seller does not accept responsibility for delays in deliveries due to fire, flood, strikes, or any other condition or contingencies beyond its control.
10. The purchaser is responsible for installation of the materials on the job site, and the seller has no responsibility in this regard.
11. All approved credit accounts are payable within thirty days of invoice. After 30 days, interest will be charged at 1.5%\* per month (A.P.R. 19.65%\*), Calculated monthly on the balance owing at the beginning of the period. If purchaser defaults in the payment of any portion of amounts due on this account, the entire remaining unpaid balance shall, at the option of the seller, immediately become due and payable with collection costs incurred.
12. Skid deposits are non-refundable with 2 or more broken top boards or one main stringer board. If you have skids loaded onto your vehicle or receive a delivery with skids in this condition, you must have the Unilock representative (loader or truck driver) note the quantity on the shipping document paperwork. The responsibility of the return of empty skids for credit rests with the purchaser. There will be a net usage fee for all skids accepted for return. Skids picked up by Unilock in conjunction with a delivery by a Unilock truck will not be credited until returned to Unilock and sorted and verified by Unilock. Normal delivery charges will apply to requested skid pick-ups which do not coincide with a Unilock delivery to the site.
13. A sectioning charge of \$30.00 is applied to all items where bundles are split.

## GENERAL TERMS

1. All prices are F.O.B. Aurora, IL, Marengo, IL or Elkhorn, WI. Please reference the freight price chart in the Product Resource Guide. Contact Unilock for Kansas rates.
2. All C.O.D. orders must be paid by certified check, cash, or prior approved check. Cashier's checks are encouraged over cash due to COVID-19.
3. Contact Unilock for shipping schedules, rates, and conditions, and any fuel surcharges.
4. Configurations may vary from time to time due to mold design changes.
5. Delays incurred on delivery in excess of one hour will be billed to the purchaser at \$80.00 per hour or fraction thereof. Similarly, delays incurred on partial delivery (1-7 bundles) in excess of one half hour will be billed to the purchaser at the same rate.
6. There is a mandatory \$22.00 SKID DEPOSIT CHARGE (Refer to your current year Product Resource Guide for all mandatory skids which are subject to change based on manufacturing). Standard skid deposits are for the following skids: 4-WAY, SKID26X40HD, SKID2640HD, SKID38X40HD, SKID36, SKID38, SKIDSOLID48X36, SKIDSOLID46X36 and SKID26X34HDPKGN, which is refundable when returned in good condition (\$1.00 Usage fee will be charged). Skid returns will be posted to account next business day.
7. There is a mandatory \$28.00 SKID DEPOSIT CHARGE for all PREMIUM-1, PREMIUM-2, PREMIUM-3 and PREMIUM-4 skids. Premium skids are mandatory packaged skids for all STONEMARK™ and Ledgestone™ product pallets, which is refundable when returned in good condition (\$1.00 Usage fee will be charged). Skid returns will be posted to account next business day.
8. There is a mandatory \$32.00 SKID DEPOSIT CHARGE for all SKIDLTD (Refer to your current year Product Resource Guide for all mandatory skids which are subject to change based on manufacturing). SKIDLTD skid deposits are for all Canadian Products, which are refundable when returned in good condition (\$1.00 Usage fee will be charged). Skid returns will be posted to account next business day.

## CUSTOM ORDERS

1. Custom Orders refer to nonstandard-inventoried items. Deposits of up to 100% of the order value (minimum of 20%) will be required. Minimum quantities apply on custom orders. Custom orders may be subject to a [500] sq.ft. over-run charge. Purchase orders as well as a signed special order release form will be required for custom material. Custom Orders will not be accepted for return.
2. All custom produced product must be shipped within 30 days of production. After 30 days all custom produced material will be subject to a storage fee of \$5.00 per pallet per month. Please contact your Territory Manager for more information.

# 2022 Freight Rates

# of Bundles	Boom	Princeton
1 to 7	\$380.00	\$440.00
8 to 14	\$520.00	\$605.00

Based on the US National Average for the Midwest Rates

Rates are based on a 0-50 mile radius from Aurora, IL, Marengo, IL & Elkhorn, WI facilities. Please contact the shipping department for all other rates and any questions concerning delivery. Approximately 14 bundles or 43,000 pounds per truckload. Delays incurred on delivery in excess of one hour will be billed to the purchaser at \$80 per hour or a fraction thereof. Partial load deliveries in excess of one-half hour will be billed to the purchaser at the same rate.

Cost of Fuel	Flat Surcharge
\$2.30 to \$2.79	\$27.00
\$2.80 to \$3.29	\$42.00
\$3.30 to \$3.79	\$51.00
\$3.80 to \$4.29	\$64.00
\$4.30 to \$4.79	\$78.00
\$4.80 to \$5.29	\$93.00
\$5.30 to \$5.79	\$106.00

Fuel Surcharge for 0-50 miles only

At Least	Less Than	Fuel Surcharge
\$2.30	\$2.79	5%
\$2.80	\$3.29	10%
\$3.30	\$3.79	15%
\$3.80	\$4.29	20%
\$4.30	\$4.79	25%
\$4.80	\$5.29	30%
\$5.30	\$5.79	35%

Fuel Surcharge for deliveries over 50 miles

NOTE: Rates are based on current economic conditions and are subject to fuel surcharges, which will be based on the U.S. National Average Midwest rate of diesel fuel, calculated weekly. When the average price of fuel rises (or drops), the surcharge will take effect the following Monday. These rates can be located at [www.eia.gov/petroleum/gasdiesel/](http://www.eia.gov/petroleum/gasdiesel/).

## Important Notes

### SPECIAL ORDER PRODUCTS

Products listed as "Special Order" are not currently inventoried and may require additional lead times for manufacturing (or transfer from other Unilock locations). Prior to bidding or quoting projects, confirm Special Order unit pricing and minimum quantity requirements. A signed "Special Order Release Form" must be submitted prior to manufacturing and all material must begin shipping within 30 days of manufacturing date. Any Special Order products remaining at Unilock after 30 days will be subjected to a storage fee of \$5.00 per pallet per month. (Maximum storage is 3 months) All quantities listed on the Special Order Release Form must ship and be paid in full. Please contact your Territory Manager for more information.

## Important Notice

**1. EXTRA CARE** must be exercised when using Polymeric Sand on the following products:

Arcana Courtstone® Copthorne® Il Campo® Richcliff® Series™ Town Hall® Tribeca Cobble Umbriano™

Polymeric Jointing Sand can be used on these products but the fine polymers and binders in Polymeric Jointing Sand have a natural tendency to adhere to the surface and therefore extra diligence must be taken to pre-clean the surface prior to "wetting the sand in" and squeegee off the surface post application. Failure to do so will result in a "whitish haze" on the surface that is difficult to remove.

**2. IMPORTANT COMPACTION NOTICE:** Always pre-compact the pavers WITHOUT SAND IN THE JOINTS. This will facilitate proper leveling. Polymeric sand can then be swept into the joints. Always use a compactor with a protective membrane attached to the bottom of the plate.

Polymeric Jointing Sand, cleaners and sealers, must always be applied by a trained and experienced professional. Contact your local Unilock office for training and the most up-to-date best practices.

**NOTICE:** Unilock does not accept any responsibility for damage to the surface caused by the improper application and use of polymeric sand, sealers or cleaners. Please refer to each individual manufacturer for full instructions prior to install.

# INCREASE SALES BY OFFERING A PAYMENT OPTIONS PLAN... ON EVERY PROJECT!

Ultimately, offering payment options inspires more homeowners to complete the project they truly want without delay. When homeowners learn upfront about their payment options, they are less anxious about the potential for a large price tag during the process. **The positive customer experience due to payment arrangement flexibility often results in more and better referrals, creating a cycle of success that's a win-win for everyone.**

**SCAN THE QR CODE FOR MORE INFORMATION OR TO CONNECT WITH A UNILOCK TERRITORY MANAGER FOR MORE INFORMATION.**

# IMPORTANT NOTES

---

## UNILOCK PAVER PATTERNS

This Product Data Guide contains an extensive reference to patterns and designs. The purpose of these pattern swatches is to help the designer plan unique and exceptional designs. The percentages of products shown are based on the pattern and not on bundle configurations. In fact, there may be situations in which a pattern has been created with one particular size of stone, but that stone only comes packaged with two other sizes. This means that the designer will have to plan how the other components are used in the overall plan. This is usually accomplished by adding a border or an accent. As a result, overages or shortages may occur in certain patterns. The designer and/or installer of Unilock products accepts all responsibility for design and all associated costs incurred as a result of applying any of Unilock's suggested design patterns in a project. Please plan your project and review your order carefully prior to ordering.

## TRANSFERABLE LIFETIME GUARANTEE

Unilock provides a Transferable Lifetime Guarantee\* on the structural integrity of our paving stones, slabs and retaining wall units to the original purchaser of the product for residential use. Any materials installed and maintained to our guidelines, and subject to normal wear, that prove defective, will be replaced without cost. Color matching cannot be guaranteed and replacement labor is not included. Proof of purchase is required.

Excessive defective material (over the industry accepted normal of 2% for non-tumbled unit pavers) delivered to the purchaser will be replaced free of charge if a written claim is made within 5 days of delivery from the manufacturer. Such claims will not constitute reason for delaying payment. All goods shall be deemed accepted if completely installed. Inspect concrete products prior to opening bundle packaging to ensure that shape and color are as ordered. Unsatisfactory material must be available for inspection by Unilock to entitle the purchaser to any adjustment or credit. Inspect all concrete units during installation and set aside any which are chipped or cracked to use for any cut pieces required. The color of concrete products may vary significantly between production lots. Always install concrete units from several bundles simultaneously to ensure proper distribution of color. Prior to final compaction, inspect installed pavers for good color distribution. Relocate certain pavers, if necessary, to achieve desired color blend.

\*Transferable Lifetime Guarantee: Register your project within 60 days of your dated proof of purchase to ensure your Unilock Guarantee is fully transferable! Simply go online at [unilock.com](http://unilock.com) and follow instructions. Once processed, you will receive an original Transferable Warranty Certificate for your records.

## PRODUCT HANDLING WARNING

**Bundle Straps Under Tension - Use extreme caution when removing or handling straps.** Always wear gloves, goggles, safety footwear, and protective clothing when removing or handling straps. Failure to do so may result in serious bodily injury or loss of sight.

Cut all concrete products only in well ventilated areas. Inhalation of dust is a serious health risk. A "NIOSH" (US) or a "CSA" (CDN) approved respirator, safety goggles, hearing protectors, and gloves must be worn at all times. Always "wet-cut" or "wet grind" concrete products to minimize dust.

Do not stack bundled concrete products higher than 2 bundles high. Contents of the bundle may be unstable and subject to topple when stacked. Always use extreme caution and appropriate equipment when transporting or storing bundled concrete products. Failure to do so may result in serious bodily injury or death. Always obey gross vehicle weight (GVW) loading limitations and regulations.

Hazard Rating: Fire 0, Health 1, Reactivity 0. See MSDS Concrete Masonry (Pavers). Contact Unilock for complete sheet or view safety information at [Unilock.com](http://Unilock.com).

Unilock assumes no liability or responsibility for loss or damage, resulting from the improper use or handling of our products, or from failure to follow instructions, warnings, and/or advisories on the product label, and on the MSDS sheet.

## TRADEMARK & LEGAL INFORMATION

Umbriano® is a trademark of Metten Stein + Design GmbH & Co KG used under license by Unilock. Unilock Ltd. and Hengestone Holdings, Inc. are the owners or authorized users of all trademarks used in this publication unless otherwise specified.

Colors shown in this brochure should be used only as a guide. Colors should always be chosen from actual samples. Contact your local Unilock representative for color availability in your area. Not all products shown are available at all Unilock locations. Log on to [www.unilock.com](http://www.unilock.com) for availability. Measurements throughout this portfolio are nominal.

## QUALITY COMMITMENT

Unilock was the first concrete paver manufacturer in North America to offer a Lifetime Guarantee, and since then we have continued to stand behind it to ensure customers are completely satisfied with our products. With almost 2 billion stones in the ground, that's quite the commitment!

Our products are better and stronger than other brands. In fact, our internal standards of manufacturing in the USA and Canada far exceed industry standards set by ASTM (American Society for Testing and Materials) and CSA (Canadian Standards Association) and other European organizations.

### LIFETIME GUARANTEE - RESIDENTIAL

Our Transferable Lifetime Guarantee warrants the structural integrity of Unilock concrete paving stones and retaining wall units when used in residential applications. It covers any structural failure or deterioration of the concrete unit resulting from normal use or from the reasonable application of sodium chloride (common rock salt used for de-icing). StoneMark™ products have the same warranties as Unilock paving stones and retaining walls, but cannot be warranted against damage resulting from de-icing products.

Any materials installed and maintained to our guidelines, and subject to normal wear, that prove defective, will be replaced without cost. Proof of purchase is required. Customers are encouraged to submit receipts to us as soon as their project is complete, using the Unilock Warranty Registration Form on our website (Unilock.com).

Purchasers need to ensure that the product they purchase is appropriate for their intended application; for example, only certain thicknesses of products are appropriate for driveways. Color matching of the replacement product and/or lost time cannot be guaranteed and labor costs related to installing replacement product is not included. Unilock reserves the right to seek a professional diagnosis and opinion to determine the exact cause of the product failure. If the failure falls within our warranty parameters, Unilock will replace the defective product.

**EXCLUSIONS** – Unfortunately, some things are beyond the control of Unilock, and are therefore not covered by this warranty. These include: naturally occurring efflorescence, hazing from polymeric jointing sand, scratching and chipping resulting from snow removal or construction equipment, damage caused by natural or un-natural disasters, or negligence by anyone other than Unilock. The Unilock warranty also does not cover deterioration or damage as a result of poor design or poor installation practices that are contrary to specifications as laid out by ICPI

(Interlocking Concrete Pavement Institute) and the NCMA (National Concrete Masonry Association). For more information please visit [www.icpi.org](http://www.icpi.org) and [www.ncma.org](http://www.ncma.org). Additionally, please refer to the Maintenance, Color and Installation Advisories.

### MAINTENANCE ADVISORY

#### 1. Cleaning and Sealing

As with anything that is outdoors, Unilock products are subject to harsh weather, dust, acid rain, leaf stains, water stains and general wear from foot or vehicular traffic. Therefore, periodic cleaning using environmentally safe detergents designed for cleaning concrete is recommended to maintain a bright, fresh appearance.

To make subsequent cleaning easier and more effective, a concrete sealer can be applied to new or cleaned products to help prevent the penetration of substances that can cause stains.

There are many types of concrete cleaners and sealers on the market. Always read the instructions carefully before using the product to make sure that it will function as expected. Testing first, in a small unobtrusive area, is always a good idea to ensure the results are acceptable. Consult your local hardscape dealer to find the products best suited for your paver or wall installation.

*Visit [Unilock.com](http://Unilock.com) to register for your Transferable Lifetime Guarantee.*

## 2. Winter Maintenance

Snow removal by way of metal blades on plows or shovels will scratch and chip the surface of pavers, causing permanent damage. To mitigate this risk, metal snow clearing blades must always have a polyurethane or rubber cutting edge attached when plowing pavers.

**De-icing Salts** – The use of de-icing products on paver surfaces is important for safety and to help mitigate snow accumulation. Most de-icing products will have some effect on concrete, even if the product label indicates that it is safe on concrete. If you must use a de-icing product, we recommend that you use Sodium Chloride (ordinary rock salt) or Calcium Chloride (for colder climates). Always apply sparingly. The use of de-icing products on StoneMark, wet-cast pavers, slabs or coping may damage the product and therefore is not recommended. Whenever possible use a coarse sand as an anti-slip measure instead of de-icing chemicals.

## COLOR ADVISORY

### 1. Selection

Due to the inherently variable nature of printed materials and digital monitors, Unilock cannot guarantee that products will match the color of printed or online images. Therefore, when making final product selections, decisions should be made based on actual stones which are readily available from Unilock, Authorized Contractors or Authorized Dealers. Most Unilock products are not comprised of a single color, but rather contain blended colors for a more natural appearance. This means that there will be significant color variance from stone to stone, so purchasers should view multiple units together to get a more accurate impression of the overall color.

*Note:* Unilock Natural Stone variations

are outside the control of Unilock. Purchasers of natural stone must be willing to accept this inherent variability.

### 2. Pre-installation checking

Always check the label to ensure that the Unilock product delivered to your project is the product and color ordered. If there is a discrepancy, or if the product inside the packaging doesn't appear to be correct, contact your hardscape dealer before installing any pavers or wall units. If the product is installed, it indicates your acceptance of the products as delivered.

### 3. Blending

If the project requires more than one bundle of product it's always a good idea to draw product from several bundles when installing, as this ensures that any variation between bundles will be seamlessly integrated in the project. When bundles are from different production runs, random selection from multiple bundles is even more important.

### 4. Efflorescence

Efflorescence is a naturally occurring process that may appear as a white or light grey powder on the surface of concrete, clay or natural stone. It is temporary, and will disappear over time. However, if it is bothersome, an efflorescence cleaner can be used to remove it. There is no way to predict or prevent efflorescence. Because it does not compromise the structural integrity of the product, it is not covered by Unilock product warranties.

## INSTALLATION ADVISORY

### 1. Construction Residue

While a certain amount of dirt on pavers and walls is inevitable during the construction phase, installers are strongly encouraged to clean as they go as construction residue can embed in the surface and become difficult

to remove. The slurry produced during wet-saw cutting is particularly stubborn to clean if allowed to dry on the surface of pavers. Unilock warranties do not cover stains caused by a failure to remove construction residue.

### 2. Polymeric Haze

Surface hazing caused by polymeric jointing sand is not the responsibility of Unilock. Polymeric jointing sand should only be installed by an experienced and knowledgeable contractor. Any sand that is left on the surface prior to activation will result in a haze that is very difficult and time-consuming to remove. Only the highest quality, brand name polymeric sand that is guaranteed by the manufacturer should be used.

### 3. Compaction Damage

Both smooth and textured paver surfaces can be scratched by compaction equipment used to 'flatten' a new paver installation. Therefore, metal plate compactors must be fitted with a polyethylene mat to protect the paver surface from becoming scratched, or a superior option is to use a rubber-roller compactor instead. Damage to product surfaces caused by failure to follow these instructions is not covered by Unilock product warranties.

## FIRE PIT WARNING

Wood-burning fire pits must be lined with a proper metal insert or refractory (fire-rated) brick to protect the concrete components from extreme exposure to heat. Extreme heat on a concrete surface may affect the structural integrity of the concrete and can be dangerous. The floor of the fire pit should always be constructed using refractory brick or a sand bed. For your safety, always use a spark screen over the fire.

# Let's **BUILD YOUR BUSINESS** together.

Being a hardscape contractor is tough work. No one gets that better than Unilock. We've been supporting hardscaping professionals since 1973, longer than any other company in the industry. Getting our boots dirty is part of our promise to support our Unilock contractors in any way we can. You're never alone - not even on the project site.
